Frequently Asked Questions

Can I use a Calculator on TEAS?

A four-function drop-down calculator is built into the exam (multiplication, addition, subtraction, and division). Handheld calculators are **not** allowed. You may only use the built-in one.

Should I retake the TEAS?

It is your decision to retake the test. The Nursing staff or TTC staff cannot make that decision for you. The highest score will be used in the ranking process. Please do not call the office to see how your score compares to the other applicants.

What score can I get on the TEAS and still get in the program?

You should aim for proficiency. Last year, a score of at least 70 was considered proficient.

How is the TEAS factored into the ranking?

As discussed at the Nursing and Allied Health Information sessions, the TEAS composite score is converted to the equivalent of a letter grade. The letter grade is then added to the ranking formula.

Can I take the TEAS outside of the dates listed?

No. All TEAS first-time tests must be completed by March 28, 2024, and retakes must be taken by the last scheduled time on April 12, 2024. No exceptions. Do not wait until the last minute.

Can I pay cash for the TEAS?

No. You must pay using a credit card, debit card, or prepaid credit card. **Estimated Cost is \$65.00 (or \$70 remote).**

Can I take the TEAS at another location?

Yes. ATI has a third-party vendor they have contracted with that offers testing sites in every state.

Can I use my TEAS scores from another year?

Yes. You may request to have ATI send your official scores to our office or indicate which year you want to use of the scores we have received.

Can I take the TEAS this year even if I took it last year?

Yes. You can take the TEAS two times per application cycle.

Is the Testing Center open during North Central's spring break?

Yes. There are times available to test over spring break.

Can I take a break during the testing?

After the Mathematics section, you may take a 10-minute break. During the break, DO NOT access any personal items. The break is self-monitored by the student and is not required.
