4. STATEMENT OF PURPOSE – Renaming of the AD/CL Building

Trustee Millard stated that the purpose of this meeting was to rename the AD/C L Building and that the Board had received a recommendation to rename to AD/CL Building from the Finance and Facilities Committee.

Trustee Rasmussen shared that the Finance & Facility Committee met on Monday, November 10, 2020 to review a proposed name for the AD/CL Building and the background supporting the recommendation. Pier and Renee Borra have been long-standing supporters of the college and most recently have provided the generous lead gift in support of the college's Building Tomorrow Together campaign. This campaign will renovate the Administration Classroom Building, invest in new campus technology and equipment, as well as grow scholarships and other student resources.

In recognition of this exceptional gift to advance the work of the college and to create an enhanced facility for classroom instruction and student success, Trustee Rasmussen moved that the board of trustees approve renaming the Administration Classroom Building to become the Borra Learning

Center, to take full effect at the completion of the renovation project. This motion was supported by both Trustees Fought and Noël.

Trustee Millard took a moment to personally thank the Borras, as follows: "On behalf of our entire North Central family, the board of trustees would like to extend our heartfelt appreciation to Pier and Renee for their generosity. From the beginning, they have made it clear that they are true partners with the college, working with us every step of the way to make our college and our campus an even better place to learn."

The Borra's are gifted visionaries. They are part of our Blue-Ribbon Advisory Committee, which works with college leadership to consider the future of business and industry in the region. They have also supported the development of revolutionary new programs within our nursing department that helped elevate it to a top-ranked position in the entire state of Michigan.

The Borra's are keenly perceptive. They have developed a deep understanding of the multi-faceted needs that the college faces. From scholarships to equipment needs in the classroom, to investing in large-scale capital needs of our campus facilities, they believe that it takes support of all areas to truly impact students – and they have demonstrated that with their gifts.

The Borra's are deeply committed to their community. They know that their investments mean a better experience for our students today and for generations to come. And they know that an investment in our students benefits more than just those individuals, it benefits our entire region.

We are honored to recognize their commitment through the renaming of this important college building and appreciate their partnership as we work to build an even brighter tomorrow, together. Pier and Renee, thank you!"
